IN 2005, HURRICANE KATRINA LEFT MILLIONS OF GULF COAST RESIDENTS HOMELESS OR DISPLACED TO OTHER COMMUNITIES. FEMA -- THE FEDERAL EMERGENCY MANAGEMENT AGENCY-- ESTABLISHED TRAILER PARKS DESIGNED AS TEMPORARY HOMES, BUT 3 YEARS LATER, THOUSANDS OF PEOPLE STILL LIVE THERE. A NEW SURVEY FOUND DEPRESSION RATES ARE SKY HIGH AMONG TRAILER PARK RESIDENTS - NEARLY 6 IN 10 HAS MAJOR DEPRESSION, A RISK FACTOR FOR SUICIDE. CHRONIC HEALTH ISSUES ARE ALSO COMMON. 80 PER CENT OF HOUSEHOLDS HAD AN ADULT WITH A CHRONIC HEALTH PROBLEM SUCH AS HEART DISEASE, DIABETES OR ASTHMA, AND 58 PER CENT HAD AT LEAST ONE CHILD AFFECTED AS WELL. TREATING THEIR ILLNESSES HAS PROVED A PROBLEM FOR MANY RESIDENTS. LACK OF HEALTH INSURANCE, A COMMON PROBLEM EVEN BEFORE THE STORM, HAS ONLY GOTTEN WORSE - 15 PERCENT OF THOSE SURVEYED SAID THEY HAD LOST HEALTH INSURANCE SINCE ARRIVING AT THE TRAILER PARK. AROUND ONE QUARTER REPORTED DELAYING OR GOING WITHOUT TREATMENT DUE TO INSUFFICIENT FUNDS. RESEARCHERS SUGGEST ONE SOLUTION MIGHT BE MOBILE HEALTH UNITS THAT COULD TRAVEL AMONG TRAILER PARKS TO PROVIDE CARE.

BEEN SHOWN TO HAVE ANTI-AGING BENEFITS AND PREVENT CANCER IN SOME ANIMALS. IT'S A NATURAL COMPOUND PRODUCED BY SOME PLANTS...FOUND IN GRAPE SKINS AND RED WINE. AND IT WORKS BY FOOLING THE CANCER CELLS INTO THINKING THEIR DNA HAS BEEN DAMAGED... WITHOUT ACTUALLY DAMAGING NORMAL CELLS. RESEARCHERS NOW SAY IT MAY MAKE RADIATION MORE EFFECTIVE IN TREATING HEAD AND NECK CANCERS. AND THEY ARE HOPING TO EVENTUALLY TRY THEIR THERAPY ON HUMANS. ONE OF THE OTHER AREAS INTERESTING ABOUT THIS PARTICULAR COMPOUND IS THAT WE MAY EVEN BE ABLE TO PREVENT SECONDARY HEAD AND NECK CANCERS DOWN THE ROAD BY HAVING PEOPLE TAKE THIS SORT OF A PREVENTATIVE APPROACH." RESEARCHERS ARE SEEKING A GRANT TO DO RESVERATROL AND RADIATION STUDIES IN HUMANS WITH HEAD AND NECK CANCER. BUT IT COULD BE FIVE TO TEN YEARS BEFORE IT'S KNOWN FOR SURE IF IT WORKS IN TREATING CANCER.

YOU'RE DOING GREAT. THANK YOU. UNTIL THREE MONTHS AGO, LINDA JANSSEN NEVER WENT JOGGING. SHE TURNED TO MARATHON RUNNER AND INSTRUCTOR JEFF GALLOWAY FOR HELP. LET'S JUST JOG FOR FIVE SECONDS. READY? GO. OVER THE YEARS, GALLOWAY HAS WORKED WITH MORE THAN 200 THOUSAND RUNNERS. OH. THE BIGGEST MISTAKE IS GOING OUT WAY TOO FAST. INSTEAD, HE ADVISES BEGINNER STUDENTS LIKE LINDA TO RUN FOR 10 TO 15 SECONDS AND THEN REST WHILE WALKING FOR 45 TO 50 SECONDS. START OUT WITH VERY SMALL SEGMENTS, EVEN IF YOU FEEL LIKE YOU COULD DO MORE. YOU WANT TO ALLOW THE FEET, THE LEGS, THE JOINTS, THE MUSCLES TO GRADUALLY ADAPT TO THE MOTION AND THEY WILL, IF YOU GRADUALLY INTRODUCE THEM TO RUNNING. GALLOWAY SAYS EXCESS SPEED CAN LEAD TO INJURY. SO CAN IMPROPER STRETCHING. THE MAJOR THING TO SORRY ABOUT ON STRETCHING IS NOT TO TRY TO STRETCH OUT A FATIGUED MUSCLE. IF YOU DO THAT AT THE END OF A WORKOUT, WHEN YOUR MUSCLES ARE TIGHT DUE TO FATIGUE, YOU CAN TEAR MUSCLE FIBERS AND TENDON FIBERS. ALMOST A PACK A DAY--SUSAN DEPIRO FINALLY HAD HER REASON FOR QUITTING - PLASTIC SURGERY.THIS IS SOMETHING THAT I'VE WANTED FOR A LONG TIME, SO THAT DID MAKE ME STOP.MANY PLASTIC SURGEONS, MYSELF INCLUDED, WON'T OPERATE ON YOU IF YOU'RE NOT ABLE TO STOP SMOKING AHEAD OF TIME. I TELL PATIENTS THE SAME THING: I WON'T OPERATE UNLESS THEY STOP SMOKING. WHY? NICOTINE IN CIGARETTES CAUSES THE BLOOD VESSELS TO SPASM. IN PLASTIC SURGERY, THOSE SPASMS CAN INTERRUPT CIRCULATION INCREASING THE RISK OF INFECTION, PROBLEMS HEALING AND PERMANENT SCARRING. TO MAKE SURE MY PATIENTS STOP I CHECK THEIR NICOTINE LEVELS PRIOR TO SURGERY FOR DEPIRO, THE RISK OF PERMANENT SCARS WEIGHED HEAVIER THAN THE DESIRE TO KEEP SMOKING.SHE STOPPED TWO WEEKS BEFORE GETTING BREAST IMPLANTS AND LIPOSUCTION. BUT SHE CRUMBLLED JUST DAYS AFTER SURGERY.SHE SNUCK A FEW CIGARETTES HERE AND THERE.MY BANDAGES WERE COMING OFF AND I NOTICED SOMETHING DIFFERENT // IT WAS LIKE A STABBING, BURNING FEELING THAT JUST WASN'T GOING AWAY. I THOUGHT IN THE BACK OF MY HEAD, 'THIS IS BECAUSE OF MY SMOKING. THIS IS WHY I'M FEELING MORE PAIN. I'M NOT HEALING CORRECTLY'.SHE FORMED WHAT IS CALLED NECROSIS.THE SKIN UNDER ONE OF HER BREASTS WAS DYING.

THAT WAS ENOUGH TO MAKE DEPIRO STOP SMOKING FOR A *SECOND TIME* AND START HEALING PROPERLY. IF I DID NOT STOP MY IMPLANTS WERE GOING TO COME OUT. AND THAT REALLY SCARED ME. IT IS ABSOLUTELY CRUCIAL... SECOND HAND... PUTTING YOURSELF AT RISK... THE GOOD NEWS... 2-4 WEEKS BEFORE AND AFTER SURGERY. QUITTING FOREVER IS BETTER.

THE FIGHT FOR SAFER SKIES ISN'T JUST A WAR ON TERROR. THE CENTERS FOR DISEASE CONTROL AND THE DEPARTMENT OF HOMELAND SECURITY HAVE TEAMED UP TO KEEP PEOPLE WITH CONTAGIOUS DISEASES OFF COMMERCIAL FLIGHTS. THE

GOVERNMENT HAS CREATED A "DO NOT BOARD" LIST WITH THE NAMES OF PEOPLE KNOWN TO HAVE DISEASES THAT COULD POSE A SERIOUS PUBLIC HEALTH THREAT. STATE AND LOCAL HEALTH OFFICIALS CAN ADD NAMES TO THE LIST, IF THEY BELIEVE THE INFECTED PEOPLE WILL IGNORE WARNINGS NOT TO TRAVEL ON COMMERCIAL FLIGHTS. ACCORDING TO THE C-D-C, 33 PEOPLE WITH SUSPECTED OR CONFIRMED INFECTIOUS TUBERCULOSIS WERE PUT ON THE LIST DURING THE YEAR ENDING MAY 31ST. IN 2006, THE AMERICAN COLLEGE OF MEDICAL GENETICS RECOMMENDED TESTING ALL NEWBORNS FOR 29 SPECIFIC DISORDERS. SINCE THEN, 21 STATES AND THE DISTRICT OF COLUMBIA HAVE IMPLEMENTED THAT PLAN. NOW, RESEARCHERS FROM THE CENTERS FOR DISEASE CONTROL HAVE EXTRAPOLATED THE DATA FROM THOSE STATES OVER ALL 50 STATES. THEY ESTIMATE DOCTORS WOULD FIND DISORDERS IN 32-PERCENT MORE CHILDREN NOW, THAN BEFORE UNIFORM TESTING. NOW, THE C-D-C SAYS PUBLIC HEALTH CARE SYSTEMS NEED TO BUILD AN INFRASTRUCTURE CAPABLE OF PROPERLY TREATING THE MORE ACCURATELY-DIAGNOSED BABIES.

THEY CAN'T READ AS LONG AS THEY'D LIKE. THEY NOTICE THAT COLORS SEEM TO FADE AND TURN YELLOW ON THEM. MCDONALD EXPLAINS CATARACTS DEVELOP SLOWLY AS PEOPLE AGE. A CATARACT IS A CLOUDING OF THE NATURAL CRYSTALLINE LENS OF THE EYE. SOME PATIENTS PUT OFF TREATMENT BY CHANGING THEIR GLASSES PRESCRIPTION BUT MCDONALD SAYS THEY'LL EVENTUALLY NEED A PERMANENT FIX. CATARACTS ARE TREATED SURGICALLY. THERE IS NO DIET OR EXERCISE OR MEDICATION THAT CAN PREVENT THEIR DEVELOPMENT NOR ELIMINATE THE CATARACT. BUT MCDONALD CLAIMS THERE IS A WAY TO SLOW THE DEVELOPMENT OF A CATARACT. THE ONLY EFFECTIVE THING YOU CAN DO TO RETARD THE FORMATION OF CATARACTS IS TO WEAR UV-BLOCKING SUNGLASSES. MCDONALD ALSO SUGGESTS HAVING A CLEAR COATING OF UV PROTECTION ON YOUR REGULAR GLASSES.

CARDIAC ARREST OCCURS SUDDENLY AND OFTEN THERE ARE NO WARNING SIGNS. NOW A NEW STUDY FINDS DEPENDING ON WHERE YOU LIVE YOU MAY BE LESS LIKELY TO SURVIVE. " DOCTOR GRAHAM NICHOL IS A PROFESSOR OF MEDICINE AT THE UNIVERSITY OF WASHINGTON. HE AND HIS COLLEAGUES ANALYZED DATA FROM MORE THAN TWENTY THOUSAND CASES OF OUT-OF-HOSPITAL CARDIAC ARREST ACROSS THESE TEN REGIONAL AREAS IN NORTH AMERICA. THEY FOUND JUST MORE THAN HALF OF PATIENTS HAD RESUSCITATION ATTEMPTED AND LESS THAN ONE THOUSAND WERE DISCHARGED ALIVE. SURVIVAL RATES VARIED DEPENDING ON WHERE A PATIENT LIVED. "SOMEONE IN ONE COMMUNITY IS TWO HUNDRED PERCENT MORE LIKELY TO HAVE CARDIAC ARREST AND FIVE HUNDRED PERCENT MORE LIKELY TO DIE WHEN THEY HAVE CARDIAC ARREST." "SOME COMMUNITIES MAY NEED TO TRAIN MORE OF THE PUBLIC TO RECOGNIZE AND RESPOND TO MEDICAL EMERGENCIES OTHER COMMUNITIES MAY NEED TO FOCUS ON IMPROVING THEIR LOCAL ORGANIZED EMERGENCY RESPONSE. " "WE THINK IT IS IMPORTANT THAT CARDIAC ARREST BE REPORTED TO PUBLIC HEALTH GROUPS SO THAT EVERY COMMUNITY KNOWS HOW OFTEN CARDIAC ARREST OCCURS AND WHAT THE LOCAL RATE OF SUCCESS IS." BROLL PEOPLE ON STREET AMBULANCE PULLS INTO HOSPITAL PARAMEDICS AT WORK RESEARCHERS FOUND THAT ONLY ABOUT A QUARTER OF PATIENTS IN THE STUDY RECEIVED C-P-R FROM A BYSTANDER. THEY SAY PART OF THE REASON IS BECAUSE CARDIAC ARREST OFTEN OCCURS IN THE HOME WITH NOBODY AROUND BUT ALSO BECAUSE SOME PEOPLE ARE STILL NOT TRAINED IN C-P-R. RESEARCHERS SAY IN ORDER TO IMPROVE PUBLIC HEALTH ADDITIONAL FUNDING FOR RESEARCH RELATED TO EMERGENCY CARDIOVASCULAR CARE IS NEEDED. THEY BELIEVE IF SURVIVAL RATES AFTER OUT-OF-HOSPITAL CARDIAC ARREST COULD BE IMPROVED, THOUSANDS OF PREMATURE DEATHS COULD BE PREVENTED EACH YEAR. PEOPLE WHO HAVE SUFFERED A HEART ATTACK OR HEART FAILURE OFTEN FACE A LONG ROAD BACK TO RECOVERY. IT'S NO WONDER THAT PATIENTS SOMETIMES FEEL OVERWHELMED OR ALONE. IN FACT, STUDIES FIND THAT DEPRESSION LEVELS ARE 3 TIMES GREATER AMONG HEART PATIENTS. EXPERTS AT THE AMERICAN HEART ASSOCIATION SAY THE SITUATION IS SO SERIOUS THAT THEY NOW RECOMMEND ALL HEART PATIENTS BE SCREENED FOR DEPRESSION. THEY FIND THAT ASKING PATIENTS JUST TWO QUESTIONS CAN PICK OUT THOSE WHO NEED MORE THOROUGH DEPRESSION TESTING: DOCTORS SHOULD ASK: HOW OFTEN IN THE PAST TWO WEEKS YOU HAVE FELT LITTLE INTEREST OR PLEASURE IN DOING THINGS? AND ALSO: HOW OFTEN THEY YOU FELT DOWN OR HOPELESS? THOSE WHO SAY THEY HAVE FELT LITTLE PLEASURE OR FREQUENT UNHAPPINESS LIKELY HAVE DEPRESSION. PATIENTS WHO DON'T GET TREATED ARE 3 TIMES LESS LIKELY TO ATTEND CARDIAC REHAB AND THEY OFTEN DON'T TAKE THEIR MEDICATIONS AS PRESCRIBED OR GET REGULAR EXERCISE, PUTTING THEIR HEALTH AT RISK. EXPERTS SAY CATCHING THE DEPRESSION EARLY - AND TREATING IT - MAY EVEN EXTEND PATIENTS' LIVES.
